

CORPUS CHRISTI Whole School Curriculum Map – Mathematics

1. The table below shows the coverage of strands and content across all grades and all terms in Mathematics. While the proportion of weeks dedicated to each topic is set, the exact sequence **within a term** is to be determined by the class teacher. It will be dependent on the time demands on each week within the term (including public holidays and pupil free days etc) and the needs of the students to spend guaranteed curriculum time on different areas. This is particularly important when finishing off curriculum at the end of the year for Year 2 and Year 4 and for that matter at the end of Year 6(which leads into a quick turnaround to NAPLAN). If Year 5 and Year 3 spend predominant amount of time on Number and some M/ment in Terms 1, then the Year 2 and Year 4 year should end with a concerted emphasis on Chance and Data and some M/ment & Space
2. If analysis of assessment data presents certain weaknesses in a concept not covered prior to NAPLAN in year 3 and 5, then it is at the discretion of the teacher to rearrange the sequence but not the proportions of time.
3. The 11 week term in this map is in Term 1 however it is incumbent on the teacher to move the 11th topic into whatever term is carrying the 11th week across the year.

Maths Early Stage 1	Maths Year 1	Maths Year 2	Maths Year 3	Maths Year 4	Maths Year 5	Maths Year 6
